PATIENT BENEFITS

Lower center of gravity provides industry leading safety and stability.

Lay flat feature facilitates supine transfers, reducing the risk associated with falls and injuries.

WC-19 Compliant in both caster and mag wheel configurations.

Reduces the cost of non-emergent transport. Front and rear securements eliminate the need for additional transport equipment.

CAREGIVER AND FACILITY BENEFITS

- Optimum safety and functionality withstands severe agitation and involuntary movements
- Tilt and recline provides ease of use for frequent re-positioning, helping improve patient outcomes
- Enhanced positioning and innovative features allow for fewer transfers, promoting safe patient handling
- Proper seating alignment decreases patient fatigue and postural deviations reducing the use of restraints
- Quality construction provides superior durability reducing equipment maintenance and replacement costs

COMFORT TENSION SEATING® PROVIDES

- Long term seating comfort
- Conforming support for proper pelvic positioning
- Improved air flow, decreasing heat and moisture build up
- Pressure redistribution that aids in maintaining skin integrity
- Accommodation for conditions such as kyphosis and lordosis
- Decreased pressure, improved blood flow and oxygenation of the tissue

CTS Strapping flexes for individualized fit & superior comfort.
