# Centrius

Highest standard, multi-application Mattress Replacement and Overlay system.

**Multiple Compatibility: Integrated pressure monitoring mattress overlay & replacement system for all your essential needs.**

Simple but powerful, the Carilex Centrius is a cost effective therapy support surface that offers a combination of dynamic and static modes to meet individual patient's need. Working with the state-of-the-art IPS technology, Centrius' intelligent pressure monitoring system keeps an eye on the mattress 24 hours a day, ensuring the patient receives pressure relief or pressure redistribution at all times. Adjustable comfort settings for different body types, low pressure alert in case of abnormal pressure drop or power failure. Comes with 4 Directional Stretch coverlet for durability and comfort. Centrius is the perfect example of affordable quality, it provides all the essential features needed for optimal therapy and much more. It is the best wound care solution for low to high risk patients, and most suitable for hospital, homecare and nursing home environments.

**The Centrius Power Unit with IPS Technology.**

The IPS Technology, Intelligent Pressure Sensing Technology, responds to patient movements on mattress by automatically adjusting internal mattress pressure, which allows Centrius to regulate airflow and continuously provide a total envelopment for our patients. Carilex is the first brand in the industry to master IPS. This gives us more experience and vast knowledge in the technology that is years ahead of our competitors.
